## **WHAT IS THE ACORD 25 FORM?**

The ACORD 25 form,

officially titled the "Certificate of Insurance for Commercial Property," is a standardized document used in the insurance industry to verify that a specific commercial property insurance policy is in effect. It provides a snapshot of the coverage at a given point in time, summarizing key details such as the policyholder's name, the insurance carrier, policy effective dates, limits of insurance, and any applicable deductibles or endorsements.

Unlike a full policy document, the ACORD 25 is not a contract. It is a **Certificate of Insurance (COI)**—a summary document created by an insurance agent or broker at the request

of the policyholder. It is designed to satisfy the requirements of third parties who need proof of insurance before a business relationship, lease agreement, or contract can proceed.

## The Significance of the 2014 Version

The "2014" designation refers to the year this specific version of the form was released and approved by ACORD, the nonprofit organization that develops and maintains these standardized forms. While newer versions may exist, the **Acord**
